Gary,

Please see the TCLP analytical reports with the full QC package. I attached an updated version of the tracking spreadsheet. There are no actual updates as of this morning. There are a handful of samples where the totals analyses are in one SDG and the associated TCLP is in a separate SDG. These two SDGs are an example of that. In the spreadsheet, the sample ID column included "totals" or "TCLP" but the actual analytical boxes looked like they needed to be filled with an "X". So I modified the appropriate cells to show that some of the analyses were not applicable.

Thanks,
Kristie

Gary,

Attached is TCLP data for three samples. The associated lab SDG reports have all data. The final reports with all QC data are not available yet. I have updated the spreadsheet to reflect this data receipt.

Kristie
